

School Portal User Guide

This guide explains how to use the school management portal for all user types, including login, navigation, school operations, fees, reports, communication, security, and printing.

1. Overview of the Portal

The school portal is designed for different user groups, and each role has its own login page and access rights.

Users include:

- Parents / Guardians
- Students
- Teachers
- Admins
- Accountants
- HR staff

Each user should use the correct portal page for their role. The system keeps data secure and restricts access based on the user role.

2. How to Access the Portal

General steps

1. Open the school portal website.
2. Select the correct login page for your role.
3. Enter your email or username.
4. Enter your password.
5. Click Login.

Recommended browsers

- Google Chrome
- Microsoft Edge
- Firefox

Browser tips

- Allow pop-ups for the portal.
- Keep cookies enabled.
- Use the latest browser version.
- Refresh the page if the dashboard does not load.

3. Parent / Guardian Portal

How to log in

1. Open the school portal.
2. Click Parent Login.
3. Enter the parent or guardian email.
4. Enter the student admission number.
5. Enter the parent password.
6. Click Login.

What parents can do

- View the parent dashboard
- Select a child
- Check school fees
- View payment history
- Pay school fees
- View timetable
- View student progress report
- Print or save a report card
- View school notices and updates

Parent dashboard features

The parent dashboard usually includes:

- Child selection
- Student information
- Fees summary
- Payment status
- Quick actions such as payment, timetable, and report viewing

How to view a child's progress report

1. Log in to the parent portal.
2. Select the child from the dashboard.
3. Click View Progress Report.
4. Review subjects, marks, grades, teacher remarks, and comments.

How to print or save a report card

1. Open the student progress report.
2. Click Print.
3. Choose one of the following:
 - Save as PDF
 - Print directly on paper
4. Click Print or Save.

Parent printing tips

- Use Google Chrome or Edge.
- Allow pop-ups.
- Use A4 paper.
- Set layout to Portrait.

Parent support checklist

- Keep your password private.
- Never share your admission number with unauthorized people.
- Contact the school office if a child is missing from the dashboard.

4. Student Portal

How to log in

1. Open the school portal.
2. Click Student Login.
3. Enter your student email or username.
4. Enter your password.
5. Click Login.

What students can do

- View dashboard
- Check class subjects
- View exam results
- View performance summary
- View attendance records
- View timetable
- Read school notices
- Print academic report cards

How to view a report card

1. Log in to the student portal.
2. Open the dashboard or academic view.
3. Click Academic Report or Print / Download Report Card.
4. Review your grades and comments.

How to print a report card

1. Open the report card page.
2. Click Print / Download Report Card.
3. Choose Print or Save as PDF.
4. Complete the print action.

Student tips

- Always remember your password.
- Use the portal regularly to track your performance.
- If you cannot see your results, ask the class teacher or admin.

5. Teacher Portal

How to log in

1. Open the school portal.
2. Click Teacher Login.
3. Enter your teacher email or username.
4. Enter your password.
5. Click Login.

What teachers can do

- View assigned classes
- View class students
- Record marks
- Update attendance
- Review assignments
- Manage timetable
- Communicate with students and parents
- Print student academic reports
- Monitor class performance

Teacher workflow

1. Log in.
2. Open your class or assigned subject.
3. View students.
4. Record or update marks.
5. Save attendance and notes.
6. Review class performance.
7. Print reports when needed.

Teacher best practices

- Enter marks carefully.
- Check records before saving.
- Keep student information accurate and confidential.

6. Admin Portal

How to log in

1. Open the school portal.
2. Click Admin Login.
3. Enter the admin email.
4. Enter the password.
5. Click Login.

What admins can do

- Manage school information
- Add and update students
- Add and update teachers
- Manage classes and subjects
- Review school reports
- Manage fees and payment status
- Monitor academic records
- Manage notices and communication
- Configure system settings

Admin workflow

1. Login to the admin dashboard.
2. Navigate to the relevant section.
3. Add, edit, or delete data where allowed.
4. Check reports and summaries.
5. Save changes properly.

Admin support tips

- Use the correct role account.
- Do not share admin credentials.
- Keep backups of important school data.

7. Accountant Portal

How to log in

1. Open the school portal.
2. Click Accountant Login.
3. Enter your email and password.
4. Click Login.

What accountants can do

- View school financial data

- Track fees
- Monitor payments
- Check payment history
- Generate financial reports
- Support accounting operations

Accountant workflow

1. Login.
2. Open the finance or payment section.
3. Review fee payments.
4. Check student balance and payment history.
5. Generate or export financial information as needed.

8. HR Portal

How to log in

1. Open the school portal.
2. Click HR Login.
3. Enter your email and password.
4. Click Login.

What HR staff can do

- Manage employee records
- Review payroll information
- Track staff details
- Support leave and employment tasks
- Manage HR reports

HR workflow

1. Log in.
2. Open employee or payroll sections.
3. Review records and update staff information when required.
4. Generate HR reports as needed.

9. Fees and Payment Section

For parents

Parents can:

- check total fees,
- see amount paid,

- see balance,
- pay fees,
- view payment history.

Typical steps to pay fees

1. Log in as a parent.
2. Open the dashboard.
3. Select the child.
4. Click Pay School Fees.
5. Enter the amount.
6. Select the payment method.
7. Submit the payment.
8. Confirm the payment status.

Notes

- Always confirm the correct student before paying.
- Save the receipt or transaction reference.
- Contact the school if payment is not reflected.

School subscription terms

- Subscription plans may be Free, Basic, Professional, or Enterprise.
- Billing may be Monthly, Quarterly, or Annually.
- The subscription price, currency, student limit, teacher limit, class limit, and included features must be confirmed before payment.
- Payment status may be Paid, Pending, Failed, or Overdue.
- A subscription may be Active, Expired, Suspended, or Cancelled.
- Auto-renewal must be confirmed by the authorized school or Super Admin.
- Only an authorized Super Admin may create, update, suspend, or cancel a school subscription.
- Schools should keep payment receipts and transaction references.
- Subscription changes must be recorded and communicated to the school administrator.

Supported subscription payment methods

- M-Pesa
- Bank transfer
- Credit card
- Cheque

Payment and subscription support

For a payment or subscription problem, contact the Super Admin, school administrator, finance office, or technical support team. Provide the school name, subscription plan, payment method, transaction reference, payment date, and error message. Do not send passwords, PINs, or private payment credentials.

10. Reports and Documents

The portal may include several reports such as:

- student academic reports,
- fee reports,
- attendance reports,
- class reports,
- payroll reports,
- school summary reports.

How to print a report

1. Open the relevant report.
2. Click Print.
3. Choose Save as PDF or use a printer.
4. Use A4 paper and Portrait orientation.

11. Communication Tools

The portal supports communication between school staff and users.

Users can receive or send:

- class notices,
- school announcements,
- fee reminders,
- academic updates,
- messages and responses.

Best practice

- Read announcements regularly.
- Keep contact information updated.
- Respond to important school messages on time.

12. Security and Data Privacy

Always do the following

- Use the correct login page.
- Keep your password private.
- Do not share login details.
- Log out after use.
- Only access data you are authorized to view.

Important notice

If you see anything suspicious, contact the school administrator immediately.

No reverse engineering

- Users must not reverse engineer, decompile, disassemble, copy, modify, or attempt to extract the portal source code.
- Users must not bypass authentication, role restrictions, payment controls, security settings, or audit logging.
- Users must not scan, probe, or attack the portal without written authorization.
- Users must not copy database structures, private APIs, credentials, or confidential school data.
- Only authorized developers may maintain or integrate with the system, and they must follow the school's written approval and security procedures.
- Reporting a security problem to the school administrator or technical support team is allowed and encouraged.

13. Role Conditions and Team Responsibilities

Every user must follow the conditions for their assigned role. Users must not use another person's account or access information outside their responsibility.

Super Admin

- Must have the `SuperAdmin` role and an approved account.
- May manage all schools, school admins, subscriptions, academic years, logs, backups, and system reports.
- Must confirm the correct school or account before making changes.
- Must keep system-wide information confidential and review important actions in the audit logs.

School Admin

- Must use an approved admin account for the assigned school.
- May manage that school's students, teachers, classes, subjects, fees, notices, reports, and settings.
- Must not manage another school's records or change system-wide Super Admin settings.
- Must verify important changes and maintain accurate school records.

Teacher

- May access only assigned classes, subjects, and student information.
- May enter marks, update attendance, manage assignments, view timetables, and communicate through approved channels.
- Must check marks and attendance before saving.
- Must not change fees, user roles, passwords, or records outside assigned classes.

Accountant

- May access authorized fee, payment, balance, and financial reports.
- Must confirm the correct student before recording or reviewing a payment.
- Must keep receipts and transaction references secure.
- Must not edit academic marks, attendance, or staff records unless separately authorized.

HR Staff

- May access authorized employee, payroll, leave, and staff information.
- Must keep salary and employee records confidential.
- Must update staff information accurately and only when authorized.
- Must not access student academic or parent payment records unless permission is given.

Parent or Guardian

- May access only children linked to the parent account.
- May view academic progress, fees, payment history, timetable, notices, and report cards.
- Must confirm the correct child before viewing reports or paying fees.
- Must not view another child's records or share admission numbers and passwords.

Student

- May view only their own subjects, marks, attendance, timetable, notices, and report card.
- Must not edit marks, attendance, fees, or another student's information.
- Must report missing or incorrect information to the teacher or school office.
- Must log out after using a shared computer.

Conditions for all teams

- Use the correct portal and personal account.
- Keep passwords and login information private.
- Access only information needed for assigned duties.
- Do not delete, edit, download, or share records without authorization.
- Check information before saving changes.
- Report suspicious activity, incorrect access, or data errors immediately.
- Log out after every session, especially on shared computers.

14. Troubleshooting Guide

Problem: I cannot log in

Possible solutions:

- Check your email or username.
- Check your password.
- Use the correct portal for your role.
- Reset the password if required.
- Contact the school office if the problem continues.

Problem: Page is not loading

Possible solutions:

- Refresh the page.
- Check your internet connection.
- Clear browser cache if necessary.

- Try another browser.

Problem: Print dialog does not open

Possible solutions:

- Allow pop-ups in the browser.
- Use Chrome or Edge.
- Try again after refreshing the page.

Problem: Report card is blank

Possible solutions:

- Wait until results are entered.
- Ask the teacher, class teacher, or admin.
- Confirm that the student has assessment data.

Problem: Missing student or child in dashboard

Possible solutions:

- Check that the record is assigned to the correct parent account.
- Contact the school office for support.

15. Quick Flow for Each User

Parent

Login → Dashboard → Select Child → View Progress Report → Print

Student

Login → Dashboard → Academic Report → Print

Teacher

Login → Class Dashboard → Student Records → Marks / Attendance → Save / Print

Admin

Login → Dashboard → Student / Teacher / School Management → Reports → Save or Print

Accountant

Login → Finance Dashboard → Fees / Payment Reports → Review

HR

Login → HR Dashboard → Employee / Payroll Records → Review

16. Support and Contact

If you have problems with the portal, contact:

- School administrator

- Class teacher
- Finance office
- HR office
- IT or technical support if available

Always report issues clearly and include:

- your role,
- the page you are on,
- the error message,
- and the time the issue happened.

17. Final Tips

- Use the portal regularly.
- Keep records updated.
- Check your marks, fees, and notices often.
- Always logout after use.
- Follow school instructions for correct use of the system.

Conclusion

The school portal helps parents, students, teachers, and administrators work together more easily. With the correct login and understanding of each section, users can access reports, pay fees, manage academic information, and print essential documents.

This guide is meant to help all users understand the system and use it confidently.

Parent Portal Guide

Welcome

This guide shows how parents and guardians can log in and use the school portal.

1. Log in to the Parent Portal

1. Open the school website or portal link.
2. Click Parent Login.
3. Enter your parent or guardian email.
4. Enter the student admission number.
5. Enter your parent password.
6. Click Login.

> Make sure you use the correct email and admission number for your child.

2. View your child's dashboard

After login, you will see the parent dashboard.

You can:

- select your child,
- check fees,
- view payment history,
- pay school fees,
- view timetable,
- view academic progress report.

3. View student progress report

1. On the dashboard, select the child.
2. Click View Progress Report.
3. The student academic report will open.
4. You can review the marks, grades, remarks, and comments.

4. Print or save the report card

1. Open the progress report page.
2. Click Print.
3. A browser print window will open.
4. Choose one of the following:
 - Print to a printer

- Save as PDF

5. Click Print or Save.

Printing tips

- Use Google Chrome or Microsoft Edge.
- Allow pop-ups in the browser.
- Use A4 paper and Portrait mode for better printing.

5. Pay school fees

1. Open the parent dashboard.
2. Click Pay School Fees.
3. Enter the amount.
4. Choose the payment method.
5. Submit the payment.
6. You can also view payment history.

6. View timetable

1. From the dashboard, click View Timetable.
2. The timetable for your child will display.

7. Troubleshooting

I cannot log in

- Check your email and password.
- Ensure you are using the correct student admission number.
- Contact the school office if you still cannot log in.

The print page does not open

- Allow pop-ups in your browser.
- Try using Chrome or Edge.
- Refresh the page and click Print again.

The report is not showing

- Confirm that the school has entered the student marks.
- Contact the school office for assistance.

8. Important notes

- Keep your login details private.
- Do not share your password with anyone.

- Always use the official school portal.

Need help?

Contact the school office or administrator for support.

Student Portal Guide

Welcome

This guide shows how students can use the school portal.

1. Log in to the Student Portal

1. Open the school portal website.
2. Click Student Login.
3. Enter your student email or username.
4. Enter your password.
5. Click Login.

2. Student dashboard

After login, you will see your dashboard.

You can:

- view subjects,
- check grades,
- view attendance,
- view notices,
- see your timetable,
- print your report card.

3. View your report card

1. Open the dashboard.
2. Go to your academic or subjects page.
3. Click Print / Download Report Card.
4. Your report will open.

4. Print or save the report card

1. Click Print / Download Report Card.
2. Choose one of the following:
 - Save as PDF
 - Print to a printer
3. Click Print or Save.

Printing tips

- Use Chrome or Edge.
- Use Portrait layout.
- Use A4 paper.

5. Troubleshooting

I cannot log in

- Check your email and password.
- Make sure you are on the correct Student Login page.
- Contact the school office if needed.

Report is not showing

- Contact your teacher or school office.
- Ensure your results have been entered.

Important tips

- Do not share your login password.
- Use the official school portal only.
- Always logout after use.

Teacher Portal Guide

Welcome

This guide explains how teachers use the school portal.

1. Log in to the Teacher Portal

1. Open the school website.
2. Click Teacher Login.
3. Enter your teacher email or username.
4. Enter your password.
5. Click Login.

2. What teachers can do

- View assigned classes
- View class students
- Record marks
- Update attendance
- View assignments
- Manage timetable
- Communicate with students and parents
- Print report cards if needed

3. View students and results

1. Open the class dashboard.
2. Select the class or student.
3. Review marks and attendance.
4. Make updates where required.

4. Print student reports

1. Open the student record.
2. Go to the report or academic section.
3. Click Print Report Card.
4. Save as PDF or print.

5. Troubleshooting

- Check your password if login fails.

- Refresh the page if data does not load.
- Contact the administrator if you cannot access your class.

Important notes

- Keep your login details secure.
- Update records accurately.
- Always logout after finishing work.

Admin Portal Guide

Welcome

This guide shows how administrators use the school management portal.

1. Log in to the Admin Portal

1. Open the school portal website.
2. Click Admin Login.
3. Enter your admin email.
4. Enter your password.
5. Click Login.

2. What admins can do

- Manage students
- Manage teachers
- Manage classes and subjects
- View school reports
- Review fees and payments
- Manage notices and communication
- Update system settings

3. Manage students and teachers

1. Open the dashboard.
2. Select students or teachers.
3. Add, edit, view, or delete records as needed.

4. View reports

1. Go to the reports section.
2. Choose the report you need.
3. Review student or school data.
4. Print if required.

5. Troubleshooting

- Check login details if access fails.
- Refresh the page if data does not load.
- Contact technical support when the issue continues.

Important notes

- Keep admin login credentials confidential.
- Only update records that you are authorized to change.
- Logout when you finish tasks.

Super Admin Portal Guide

This guide explains how the Super Admin uses the school management system to manage schools, school administrators, subscriptions, academic years, system activity, backups, and reports.

1. Super Admin Responsibilities

The Super Admin has system-wide access. This role can:

- Manage all schools in the system
- Register and manage school administrators
- Create and manage subscriptions
- Manage academic year templates
- View system statistics and audit logs
- Create and verify backups
- Generate system reports
- Suspend or activate schools

Use this account only for system-level administration. School Admin accounts should be used for normal school operations.

2. Sign In

1. Open the school portal website.
2. Select Super Admin or Admin Login.
3. Enter the Super Admin email.
4. Enter the password.
5. Click Login.
6. Open the Super Admin Dashboard.

If access is denied, confirm that the account has the `SuperAdmin` role and that the account is approved.

3. Super Admin Dashboard

The dashboard provides access to:

- School management
- Admin management
- Subscription management
- Academic year management
- System statistics
- System logs
- Backup management
- Reports

Use the dashboard navigation to open the section required for the task.

4. Manage Schools

View schools

1. Open School Management.
2. Review the school list.
3. Search or filter the list when needed.
4. Open a school to view its details, status, and subscription information.

Create a school

1. Open School Management.
2. Select Create School.
3. Enter the school name.
4. Enter the school email and phone number.
5. Select or enter the school administrator.
6. Save the school.

Suspend a school

1. Open the school record.
2. Confirm that you have selected the correct school.
3. Select Suspend.
4. Confirm the action.

Suspension should be used only when authorized. Record the reason for the action according to school policy.

Activate a school

1. Open the suspended school record.
2. Select Activate.
3. Confirm the action.
4. Check that the school status is active.

5. Manage School Administrators

Register an administrator

1. Open Admin Management.
2. Select Register Admin.
3. Enter the administrator name, email, password, and school.
4. Review the details.

5. Save the account.

View administrators

1. Open Admin Management.
2. Search or filter administrators.
3. Open an administrator to review the account and assigned school.

Reset an administrator password

1. Open the administrator record.
2. Select Reset Password.
3. Confirm the action.
4. Give the new temporary password to the administrator securely.
5. Ask the administrator to change it after signing in.

Never send passwords through public messages or share them with unauthorized people.

6. Manage Subscriptions

Subscription terms

- Available plans are Free, Basic, Professional, and Enterprise.
- Billing cycles are Monthly, Quarterly, and Annually.
- Each subscription has a price, currency, student limit, teacher limit, class limit, feature list, start date, and end date.
- Subscription statuses are Active, Expired, Suspended, and Cancelled.
- Payment statuses are Paid, Pending, Failed, and Overdue.
- Auto-renewal is available and must be confirmed by the authorized administrator.
- Supported payment methods are M-Pesa, Bank Transfer, Credit Card, and Cheque.
- Confirm the plan, price, dates, limits, and payment method with the school before saving.

Create a subscription

1. Open Subscription Management.
2. Select Create Subscription.
3. Select the school.
4. Choose the plan name.
5. Enter the plan price and billing cycle.
6. Enter the start and end dates.
7. Set student and teacher limits if required.
8. Save the subscription.

Update a subscription

1. Open the subscription record.
2. Select Edit or Update.
3. Change the plan, dates, limits, or status.
4. Save the changes.

Cancel a subscription

1. Open the correct subscription.
2. Review its school and billing details.
3. Select Cancel.
4. Confirm the action.

Always confirm the correct school before changing or cancelling a subscription.

Subscription and payment support

The Super Admin or authorized finance team handles subscription questions, payment confirmation, plan changes, renewals, and cancellation requests. When requesting support, provide the school name, subscription ID or plan, payment method, payment date, transaction reference, and the error message. Never request or share a user's password, M-Pesa PIN, card number, or other private credentials.

7. Manage Academic Years

1. Open Academic Year Management.
2. Select Create Academic Year.
3. Enter the year name and dates.
4. Add term or period information when required.
5. Save the academic year.
6. Review the list to confirm it was created correctly.

Academic year templates help schools keep academic periods consistent.

8. System Statistics and Logs

View system statistics

1. Open System Statistics.
2. Review school, administrator, subscription, and user totals.
3. Use the information to monitor the system.

View audit logs

1. Open System Logs or Audit Logs.
2. Search by user, action, school, or date when available.
3. Review important changes and administrative actions.

4. Report suspicious activity to the system owner.

Audit logs should not be deleted or changed without authorization.

9. Backups

Create a backup

1. Open Backup Management.
2. Select Create Backup.
3. Confirm the backup scope and destination.
4. Start the backup.
5. Wait for the success message.

Review backups

1. Open the backup list.
2. Check the date, status, and backup details.
3. Keep important backups in a secure location.

Verify a backup

1. Select a completed backup.
2. Click Verify Backup.
3. Review the verification result.
4. Report failed verification immediately.

Create backups before major system changes or maintenance.

10. Generate Reports

1. Open Reports.
2. Select the report type.
3. Enter filters such as school, status, or date.
4. Generate the report.
5. Review the information.
6. Print the report or save it as PDF if required.

Use reports for system monitoring, planning, and authorized reviews.

11. Security Rules

- Keep Super Admin credentials private.
- Use a strong, unique password.
- Log out after every session.

- Do not share the `x-admin-id` or other authentication information.
- Do not reverse engineer, decompile, disassemble, copy, or modify the portal software without written authorization.
- Do not bypass role permissions, authentication, payment controls, security settings, or audit logs.
- Do not scan, probe, or test the system offensively without written authorization.
- Do not copy private APIs, database structures, credentials, or confidential school data.
- Report suspected security weaknesses to the authorized technical support team.
- Check the selected school before making changes.
- Give users only the access they need.
- Review audit logs regularly.
- Create backups before major changes.

12. Troubleshooting

Access denied

- Confirm the account is a Super Admin account.
- Check that the account is approved.
- Confirm the request uses the correct authentication details.

School is not found

- Check the school ID or search term.
- Confirm that the school has not been deleted.
- Refresh the school list.

Administrator cannot be registered

- Confirm the email is not already in use.
- Check that the school exists.
- Confirm all required fields are complete.

MongoDB or server connection error

- Confirm MongoDB is running.
- Confirm the backend server is running.
- Check the backend connection settings.
- Contact technical support if the problem continues.

Backup fails

- Check available storage.
- Review the system error message.
- Try again after resolving the server problem.
- Report repeated failures to the system administrator.

13. Recommended Super Admin Workflow

Sign in → Review Dashboard → Check System Status → Manage Schools/Admins → Review Subscriptions → Check Logs
→ Create Backups → Generate Reports → Log out

14. Support Information

When reporting a problem, include:

- Your Super Admin email
- The section where the problem occurred
- The school or administrator involved
- The error message
- The date and time
- A screenshot if available

15. Final Checklist

Before finishing a Super Admin session:

- Confirm all changes were saved.
- Verify the correct school or user was selected.
- Check important actions in the audit log.
- Create a backup after major changes.
- Log out of the portal.

The Super Admin account controls the whole platform. Use it carefully and keep all system information confidential.
